## Bookings by Legal Proceedings

Of the 2541 bookings, Pretrial staff prepared PSA and OR-workups for 1,244 bookings for review by the arraignment court. These bookings were for individuals charged with an on-view offense; no warrant arrest; or Ramey or District Attorney (DA) warrant and ineligible for citation or pre-arraignment review. Of these 1,244 bookings, 650 were either discharged, dismissed with a motion to revoke either parole or probation, or reduced to misdemeanors during the District Attorney’s rebooking process and subsequently released on a citation. An additional 9 persons arrested on DA warrants posted bail. The remaining 585 were arraigned an average of 63.2 hours after ID Confirmation.

The category labeled as “Warrants and Other Bookings” includes a variety of bookings such as persons arrested for warrants from both local and other jurisdictions; state hospital returns; court remands; and persons held and released when sober.

### **B. Number eligible for pre-arraignment review**

Between March 1, 2021 and May 31, 2021, 409 bookings into the county jail were eligible for pre-arraignment review, or approximately 16% of all bookings. Four were dismissed before the OR packet was uploaded. In one case involving a defendant who made arrangements to surrender, the OR packet was completed and submitted prior to booking. Of the remaining 404, Pretrial staff uploaded 403 OR workups within the eight-hour deadline, a 99.8% compliance rate. There was one case when Pretrial staff uploaded the PSA and OR packet after the eight hours.

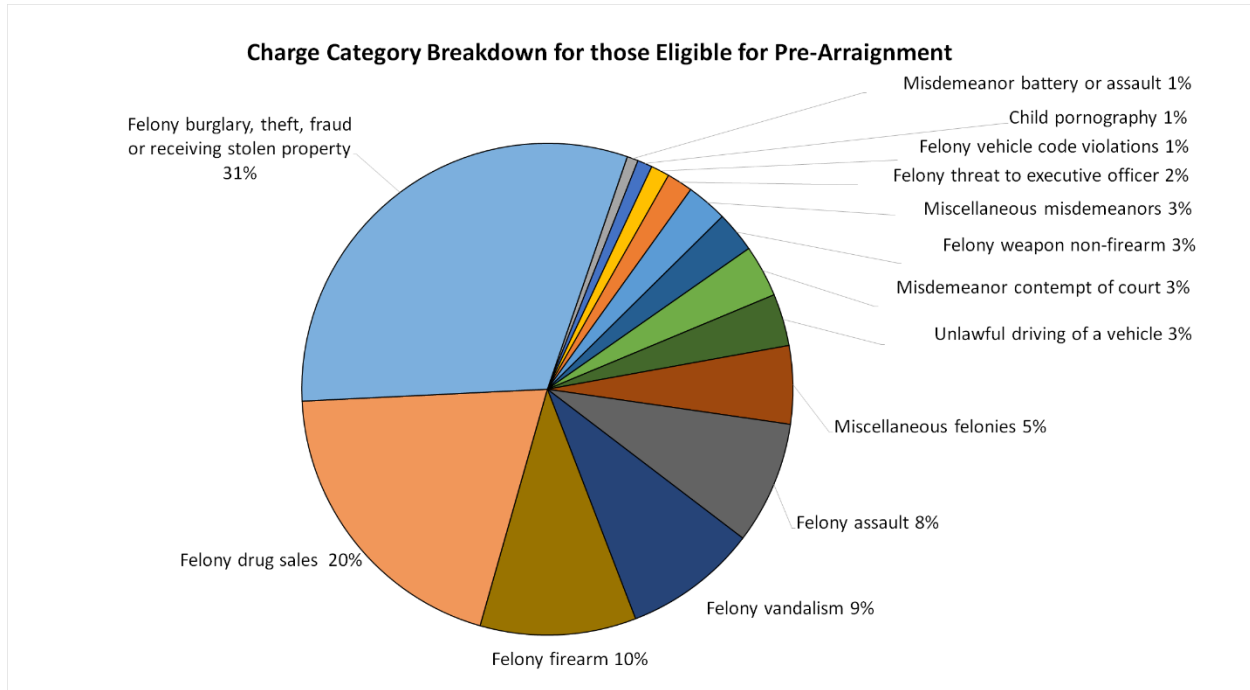

The defendant in question was ID confirmed on May 22<sup>nd</sup> at 9 pm and Pretrial staff initially delayed uploading the packet because they were waiting for the incident report from the California Highway Patrol. When it became apparent that they would need to upload the work up without the incident report, a scanner malfunction delayed the upload which occurred on May 23 at 5:07am, seven minutes past the deadline.

There was a second incident that initially appeared to be a late upload, but was instead connected to a delayed ID confirmation for a second case booked while in custody. The ID confirmation for the original case was received on April 22 at 5:09 pm and the workup was uploaded 10:56 pm. Meanwhile the defendant was involved in an incident in the booking facility and was booked on a second case at 4:55pm and was transported to the hospital. Any additional cases are required to have a new ID confirmation which happened when the defendant returned from the hospital on April 23 at 12:34 am. The second ID confirmation time was not recorded properly on the ID confirmation log, so that when Pretrial staff conducted a 5am audit they noted the second case but not the second ID confirmation time and uploaded it at 5:32am and alerted SFSO to a late upload.
